Leonhardi Euleri institutionum calculi integralis

Volumen Secundum in quo methodus inveniendi functiones unius variabilis ex data relatione differentialium secundi altiorisve gradus pertractatur

Euler, Leonhard

Petropoli, 1827

ETH-Bibliothek Zürich

Shelf Mark: Rar 21392: 2

www.e-rara.ch

Die Plattform e-rara.ch macht die in Schweizer Bibliotheken vorhandenen Drucke online verfügbar. Das Spektrum reicht von Büchern über Karten bis zu illustrierten Materialien – von den Anfängen des Buchdrucks bis ins 20. Jahrhundert.

e-rara.ch provides online access to rare books available in Swiss libraries. The holdings extend from books and maps to illustrated material – from the beginnings of printing to the 20th century.

e-rara.ch met en ligne des reproductions numériques d'imprimés conservés dans les bibliothèques de Suisse. L'éventail va des livres aux documents iconographiques en passant par les cartes – des débuts de l'imprimerie jusqu'au 20e siècle.

e-rara.ch mette a disposizione in rete le edizioni antiche conservate nelle biblioteche svizzere. La collezione comprende libri, carte geografiche e materiale illustrato che risalgono agli inizi della tipografia fino ad arrivare al XX secolo.

Nutzungsbedingungen Dieses Digitalisat kann kostenfrei heruntergeladen werden. Die Lizenzierungsart und die Nutzungsbedingungen sind individuell zu jedem Dokument in den Titelnformationen angegeben. Für weitere Informationen siehe auch [Link]

Terms of Use This digital copy can be downloaded free of charge. The type of licensing and the terms of use are indicated in the title information for each document individually. For further information please refer to the terms of use on [Link]

Conditions d'utilisation Ce document numérique peut être téléchargé gratuitement. Son statut juridique et ses conditions d'utilisation sont précisés dans sa notice détaillée. Pour de plus amples informations, voir [Link]

INDEX CAPITUM,

in Volumine secundo contentorum.

Sectio prima, de resolutione aequationum differentialium secundi gradus, duas tantum variables involuentium.

CAP. I. De integratione formularum differentialium secundi gradus simplicium, pag. 3.

CAP. II. De aequationibus differentio-differentialibus, in quibus altera variabilium ipsa deest, p. 22.

CAP. III. De aequationibus differentio-differentialibus homogeneis, et quae ad eam formam reduci possunt, p. 47.

CAP. IV. De aequationibus differentio-differentialibus, in quibus altera variabilis unicam habet dimensionem, p. 73.

CAP. V. De integratione aequationum differentialium secundi gradus, in quibus altera variabilis unam dimensionem non superat, per factores, p. 97.

CAP. VI. De integratione aliarum aequationum differentio-differentialium per idoneos multiplicatores instituenda, p. 127.

CAP. VII. De resolutione aequationis $\partial \partial y + a x^n y \partial x^2 = 0$ per series infinitas, p. 151.

CAP. VIII. De aliarum aequationum differentio-differentialium resolutione per series infinitas, p. 183.

CAP. IX. De transformatione aequationum differentio-differentialium hujus formae

$$L \partial \partial y + M \partial x \partial y + N y \partial x^2 = 0, \text{ pag. 211.}$$

CAP. X. De constructione aequationum differentio-differentialium per quadraturas curvarum, p. 230.

CAP. XI. De constructione aequationum differentio-differentialium ex earum resolutione per series infinitas petita, pag. 256.

CAP. XII. De aequationum differentio-differentialium integratione per approximationes, pag. 282.

SECTIO SECUNDA, de resolutione aequationum differentialium tertii altiorumque graduum, quae duas tantum variables involvunt.

CAP. I. De integratione formularum differentialium tertii altioresve gradus simplicium, pag. 299.

CAP. II. De resolutione aequationum hujus formae

$$A y + B \cdot \frac{\partial y}{\partial x} + C \cdot \frac{\partial \partial y}{\partial x^2} + D \cdot \frac{\partial^3 y}{\partial x^3} + E \cdot \frac{\partial^4 y}{\partial x^4} + \text{etc.} = 0, \\ \text{sumto elemento } \partial x \text{ constante, pag. 310.}$$

CAP. III. De integratione aequationum differentialium hujus formae

$$X = A y + \frac{B \partial y}{\partial x} + \frac{C \partial \partial y}{\partial x^2} + \frac{D \partial^3 y}{\partial x^3} + \frac{E \partial x^4 y}{\partial x^4} + \text{etc.}$$

pag. 332.

CAP. IV. Applicatio methodi integrandi in capite praecedente traditae ad exempla, pag. 372.

CAP. V. De integratione aequationum differentialium hujus formae

$$X = A y + \frac{B x \partial y}{\partial x} + \frac{C x^2 \partial \partial y}{\partial x^2} + \frac{D x^3 \partial^3 y}{\partial x^3} + \frac{E x^4 \partial^4 y}{\partial x^4} + \text{etc.}$$

pag. 399.
