**www.e-rara.ch**

Die Plattform e-rara.ch macht die in Schweizer Bibliotheken vorhandenen Drucke online verfügbar. Das Spektrum reicht von Büchern über Karten bis zu illustrierten Materialien – von den Anfängen des Buchdrucks bis ins 20. Jahrhundert.

e-rara.ch provides online access to rare books available in Swiss libraries. The holdings extend from books and maps to illustrated material – from the beginnings of printing to the 20th century.

e-rara.ch met en ligne des reproductions numériques d'imprimés conservés dans les bibliothèques de Suisse. L'éventail va des livres aux documents iconographiques en passant par les cartes – des débuts de l'imprimerie jusqu'au 20e siècle.

e-rara.ch mette a disposizione in rete le edizioni antiche conservate nelle biblioteche svizzere. La collezione comprende libri, carte geografiche e materiale illustrato che risalgono agli inizi della tipografia fino ad arrivare al XX secolo.

**Nutzungsbedingungen** Dieses Digitalisat kann kostenfrei heruntergeladen werden. Die Lizenzierungsart und die Nutzungsbedingungen sind individuell zu jedem Dokument in den Titelinformationen angegeben. Für weitere Informationen siehe auch [Link]

**Terms of Use** This digital copy can be downloaded free of charge. The type of licensing and the terms of use are indicated in the title information for each document individually. For further information please refer to the terms of use on [Link]

**Conditions d'utilisation** Ce document numérique peut être téléchargé gratuitement. Son statut juridique et ses conditions d'utilisation sont précisés dans sa notice détaillée. Pour de plus amples informations, voir [Link]

**Condizioni di utilizzo** Questo documento può essere scaricato gratuitamente. Il tipo di licenza e le condizioni di utilizzo sono indicate nella notizia bibliografica del singolo documento. Per ulteriori informazioni vedi anche [Link]

## TABLE OF CONTENTS.

---

		Vol. I.
BOOK I. CHAP. I.	Objects and Nature of Geology	- p. 1
	II. III. IV. Historical Sketch of the Progress of Geology	- - - 6
	V. Theoretical Errors which have retarded the Progress of Geology	- - 109
	VI. VII. VIII. Assumed Discordance of the ancient and existing Causes of Change controverted — Climate	- - 135
	IX. The same Question considered in reference to the Theory of the progressive Development of Organic Life	- 222
BOOK II. CHAP. I. Aqueous Causes — Action of running		
	Water	- - - 254
	II. Rivers — Floods	- - - 275
	III. Phenomena of Springs	- - - 296
	IV. Deposits in Deltas of Lakes and inland Seas	- - - 332
	V. Oceanic Deltas	- - - 353
		Vol. II.
	VI. VII. Tides and Currents—Destroying Effects	p. 1.
	VIII. Tides and Currents — Reproductive Effects	- - - 74
	IX. Igneous Causes — Volcanic Regions	- 89
	X. XI. Volcanic District of Naples	- - 113
	XII. Etna — Its modern Lavas	- - 164
	XIII. Lancerote — Submarine Volcanos — Theory of Elevation Craters	- 191

Book II.	Vol. II.
CHAP. XIV. Earthquakes of the last Fifty Years - p.	227
XV. Earthquake of Calabria in 1783 -	254
XVI. Earthquakes, continued — Temple of Serapis - - - -	292
XVII. Elevation and Subsidence of Land without Earthquakes - - -	331
XVIII. Causes of Volcanic Heat - - -	350
XIX. Causes of Earthquakes - - -	375
Book III. CH. I. Changes of the Organic World—Reality of Species - - - -	404
II. Theory of Transmutation of Species untenable - - - -	426
III. Limits of the Variability of Species -	449
IV. Hybrids - - - -	Vol. III. p. 1
V. VI. VII. Geographical Distribution of Species -	22
VIII. IX. Changes in the Animate World, which tend to the Extinction of Species -	98
X. Changes in the Inorganic World, tending to the Extinction of Species -	142
XI. Whether the Extinction and Creation of Species can now be in progress -	164
XII. Modifications in Physical Geography caused by Plants, the inferior Animals, and Man - - - -	175
XIII. How Plants and Animals become Fossil in Peat, Blown Sand, and Volcanic Matter - - - -	198
XIV. Burying of Fossils in alluvial Deposits and Caves - - - -	218
XV. Imbedding of Organic Remains in the Deposits of Seas and Lakes -	240
XVI. How the Remains of Man and his Works are becoming Fossil beneath the Waters - - - -	258

BOOK III.	Vol. III.	
CHAP. XVII. How Fresh-water and Marine Plants and Animals are becoming Fossil in subaqueous Strata - - -		p. 281
BOOK IV. CH. I. On the Connexion of the Second and Third Books with the Fourth -		325
II. General Arrangement of Materials in the Earth's Crust, and Rules for determining the relative Ages of Rocks - - -		333
III. Discovery of successive Groups of suc- cessive Periods - - -		354
IV. Different Circumstances under which the Secondary and Tertiary Forma- tions may have originated - -		363
V. Subdivision of Tertiary Formations con- sidered chronologically - -		378
VI. Newer Pliocene Formations — Sicily		404
VII. VIII. Rocks of the same Age in Etna -		420
	Vol. IV.	
IX. Changes since the Formation of the Newer Pliocene Strata in Sicily -	p. 1	
X. Newer Pliocene Formations, marine and volcanic - - -		16
XI. Fresh-water and Alluvial of the same Period - - -		42
XII. Older Pliocene Formations - -		63
XIII. Crag of Norfolk and Suffolk -		85
XIV. Volcanic Rocks of the Older Pliocene Period - - -		102
XV. Miocene Formations — marine -		127
XVI. Alluvial — fresh-water — volcanic -		147
XVII. Eocene Formations — fresh-water -		156
XVIII. ————— — Paris Basin -		177
XIX. ——— Volcanic Rocks - -		197
XX. ——— Formations of different Coun- tries and of England - -		221

BOOK IV.	Vol. IV.
Сн. XXI. XXII. Origin of the English Eocene Formations and Denudation of the Weald	p. 233
XXIII. Secondary Formations	- - 281
XXIV. Analogy of the older Fossiliferous to the Tertiary Strata	- - - 314
XXV. Relative Antiquity of Mountain Chains	327
XXVI. On the Rocks commonly called Primary — unstratified	- - - 343
XXVII. On the Stratified Rocks called Primary	360
