---

**www.e-rara.ch**

Die Plattform e-rara.ch macht die in Schweizer Bibliotheken vorhandenen Drucke online verfügbar. Das Spektrum reicht von Büchern über Karten bis zu illustrierten Materialien – von den Anfängen des Buchdrucks bis ins 20. Jahrhundert.

e-rara.ch provides online access to rare books available in Swiss libraries. The holdings extend from books and maps to illustrated material – from the beginnings of printing to the 20th century.

e-rara.ch met en ligne des reproductions numériques d'imprimés conservés dans les bibliothèques de Suisse. L'éventail va des livres aux documents iconographiques en passant par les cartes – des débuts de l'imprimerie jusqu'au 20e siècle.

e-rara.ch mette a disposizione in rete le edizioni antiche conservate nelle biblioteche svizzere. La collezione comprende libri, carte geografiche e materiale illustrato che risalgono agli inizi della tipografia fino ad arrivare al XX secolo.

**Terms of Use** This digital copy can be downloaded free of charge. The type of licensing and the terms of use are indicated in the title information for each document individually. For further information please refer to the terms of use on [Link]

**Conditions d'utilisation** Ce document numérique peut être téléchargé gratuitement. Son statut juridique et ses conditions d'utilisation sont précisés dans sa notice détaillée. Pour de plus amples informations, voir [Link]

**Condizioni di utilizzo** Questo documento può essere scaricato gratuitamente. Il tipo di licenza e le condizioni di utilizzo sono indicate nella notizia bibliografica del singolo documento. Per ulteriori informazioni vedi anche [Link]

# CONTENTS.

## CHAPTER I.

### FIRES.

Fire, its Benefits and Dangers—Dangers of Carelessness—Causes of Fires—More Care in Use of Fire required—Spontaneous Combustion—Storage of Materials—Tendency of Fires to Increase—Desirability of Investigating Causes of Fires—Becker's Letter on this Subject—Rules to Prevent Fires—Hints for Agriculturists to Prevent Fires—Rules for Agriculturists in case of Fire . . . . .	PAGE 1
--	--------

## CHAPTER II.

### REMARKABLE CONFLAGRATIONS.

Enormous Destruction caused by Large Conflagrations—List of a few of the most remarkable—London Fires—Theatres . . . . .	18
--	----

## CHAPTER III.

### FIRE BRIGADES.

Ancient Firemen—Roman Firemen—Alfred the Great establishes the Curfew at Oxford—Extended by William I.—Ancient Fire Laws—Modern Enactments—Inadequacy of general Fire Arrangements in Great Britain—Parish Engines—Want of Trained Men to use Engines—Desirability of Volunteers—Bridewell Brigade—Inadequacy of London Fire Engine Establishment . . . . .	26
---	----

## CHAPTER IV.

### MEANS FOR SUBDUING FIRES.

Water as a Fire Extinguisher—Chemicals—Gases—Experiments—Various Plans—Desirability of Efficient Water Supply—American Fire Telegraphs—Becker's Signals—French Firemen—Chance for Good System under Metropolitan Board of Works . . . . .	38
---	----

## CHAPTER V.

### FIREPROOF STRUCTURES.

Fireproof Buildings—Inefficient Construction—Great Loss caused by them—Ignorant Suggestions—Importance of Proper Storage of Goods and Classification—Various Plans—French System—Importance and Desirability of Improved Construction . . . . .	57
---	----

## CHAPTER VI.

## HISTORY OF MANUAL FIRE ENGINES.

- Origin of Manual Engines—Attributed to Ctesibius—Described by Vitruvius—Description of Ancient Engines—Imperfections of them—Various Plans and Contrivances—Historical Sketch of their Progress to the Present Day . . . . . PAGE 66

## CHAPTER VII.

## MANUAL ENGINES: THEIR CONSTRUCTION, USE, AND MANAGEMENT.

- Manual Engines—Sizes—Construction—Requisites—Action of Engine—Weight of Engine—Desirability of Good Quality—To set the Engine to Work—Diameters of Nozzles—To lay out Hose—Hints when Working Engines—Power of ordinary Manuals—Overstatement of Powers . . . 103

## CHAPTER VIII.

## TRIALS OF MANUAL FIRE ENGINES.

- Trials of Manuals—Want of System in obtaining Results—Braidwood's Trials—List of Trials—Remarks—Trials of Mains of Waterworks . . 120

## CHAPTER IX.

## HISTORY OF EUROPEAN STEAM FIRE ENGINES.

- Advantages of Steam Power—Manufacture of Steam Fire Engines in England—Braithwaite—Shand & Mason—Shekleton—Merryweather—Roberts—Steam Float—Railway Steamers—History of Steam Fire Engines—Total of Engines made in Great Britain . . . . . 134

## CHAPTER X.

## CONSTRUCTION OF STEAM FIRE ENGINES.

- Design—Construction—Workmanship—Boilers—History of them—Investigation—Pumps—Engines—Varieties—Classes of Engines—Advantages and Disadvantages—Engine Fittings—Valves . . . . . 172

## CHAPTER XI.

## TRIALS OF STEAM FIRE ENGINES.

- Trials of Steam Fire Engines—Inefficiently Conducted—History of Trials—Remarks on them—Particulars to be observed at Trials of Steam Fire Engines . . . . . 227

## CHAPTER XII.

## ECONOMY AND ADVANTAGES OF STEAM FIRE ENGINES.

- Superior Economy of Steam—Cost of Working Steam and Manual Engines—Experiments—Great Advantage of Steam Fire Engines—Absurd Calculation on Steam Fire Engines—Repairs of Steam Fire Engines . . . 279

## CHAPTER XIII.

## MANAGEMENT OF STEAM FIRE ENGINES.

- Importance of Maintaining Steam Fire Engines in Highest Order—Care to be used in Working—Rules for Management—Points requiring Attention—Management of various Engines . . . . . 287

## CHAPTER XIV.

## REQUIREMENTS IN A STEAM FIRE ENGINE.

Requirements in Steam Fire Engines—Quickness in Raising Steam—Simplicity of Construction—Strength in all Parts—Durability—Lightness—Efficiency—Manageability—What constitutes the best Engine . . . . . PAGE 307

## CHAPTER XV.

## APPLIANCES AND EQUIPMENTS FOR FIRE ENGINES, MANUAL AND STEAM.

Placing a Station—Engine House and Fittings—Appliances and Equipments—Description and History—Rules for Use and Maintenance—Remarks . . . . . 312

## CHAPTER XVI.

## PROVISIONS FOR EXTINGUISHING FIRES IN THE CITIES AND TOWNS OF GREAT BRITAIN.

Insufficient Means for Extinguishing Fires in Great Britain—No General Law—Indifference of the Public—Volunteers best able to meet Requirements—Contrast of London, Paris, and New York—Statistics—Proportions—List of Towns and their Fire Plant—List of Unprotected Towns . . . . . 343

## CHAPTER XVII.

## THE LONDON FIRE ENGINE ESTABLISHMENT.

London Fire Engine Establishment—Origin—Insufficiency—Select Committee—New Fire Brigade Bill—Increased Taxation—Insufficiency of Scheme proposed—Points requiring Attention—Dangers to be Avoided—System followed in America . . . . . 397

## CHAPTER XVIII.

## METROPOLITAN FIRE BRIGADE ACT.

New Fire Brigade Act—Repeals all others—Duties of Brigade—Expenses—Contributions—Penalties—Power over Fire Plugs—Miscellaneous . . . . . 407

## CHAPTER XIX.

## PROPOSED METROPOLITAN SALVAGE CORPS.

Brought forward by Messrs. Becker & Le Maitre—Insufficiency of New Act—Proposed Duties—Estimate of Cost—Desirability of such an Undertaking—Similar Plan adopted by Country Brigades . . . . . 417

## CHAPTER XX.

## THE ROYAL SOCIETY FOR THE PROTECTION OF LIFE FROM FIRE.

Fire Escape Society—Origin—Progress—Objects—Summary of its Services—Neglected in Bill of Insurance Companies—Great Value and Importance—Annual Cost—Staff—Fire Escapes—Directions for Use . . . . . 421

## CHAPTER XXI.

## RULES FOR FIRE BRIGADES, MANUAL AND STEAM.

Importance of Good Rules for Fire Brigades—Desirability of thorough Training—Duties—Officers—Men—Rules for Steam—Rules for Manuals—Duties at Fires—Duties at Drills—Dress of Firemen—Use of Water—Points to be observed by Firemen—Treatment of Royal Humane Society 430

## CHAPTER XXII.

## VOLUNTEER FIRE BRIGADES.

- Value of Volunteers—Cause of Success—Superiority over Paid Men—How to Start a Brigade—Importance of Selection—Points to be Avoided—Stupid Reasons against Volunteers—Quickness of Volunteers—Letters to the Author—Remarks of 'All the Year Round'—Volunteer Life Brigades—List of Volunteer Fire Brigades . . . . . PAGE 453

## CHAPTER XXIII.

## FIRE BRIGADES OF THE WORLD.

- Foreign Fire Systems—Difficulty in obtaining Information—Ignorance of the 'Times'—Insufficiency of Water Supply—Regulations—List of Countries—Plans followed . . . . . 465

## CHAPTER XXIV.

## AMERICAN FIRE ENGINES.

- First American Steam Fire Engine—Designed and built by an Englishman—Poole and Hunt's Engines—Ettenger and Edmond's Engines—Peculiarities of Engines—Trials of Engines—Small Working Models—Classes of Engines—Remarks on them . . . . . 495

## APPENDIX

- Of Information received during the progress of the Work through the Press, and too late for insertion in the proper places . . . . . 515

## CORRIGENDA.

- Page 207 in table of dimensions of Manhattan in column of diameter of cylinder, delete  $12'' \times 9''$ , and insert  $9''$ ; in column of area, delete 108, and insert  $63'' \cdot 173$ ; in stroke column delete 'rotary engine,' and insert  $8\frac{1}{2}''$ ; and in column of strokes or revolutions, insert 300 to 400.  
 „ 228, lines 4 and 5, for francs read florins.  
 „ 240, line 9 from bottom, for vertical read horizontal, and before pump insert the word rotary.  
 N.B.—The totals of the firemen in some American towns, are different to what would result from the addition of the numbers of each company. This is caused by some not having the full complement, and the return giving only those actually enrolled.

*Directions to the Binder.*

- Diagrams of Steam Fire Engine Trials to face page 272.  
 Map of London, showing Royal Society's Fire Stations, to face page 421.

*The Illustrations in this volume are by the LONDON DRAWING ASSOCIATION.*
